From: Elbridge Cleaves/Sarah Strickland (Project Director) – Greater East Grand Region Economic Planning Team

You and key members of your Club are cordially invited to a meeting scheduled for **February 20, 2020 at 3:00PM at the Weston Town Office** for the purpose of having a “strategic discussion” about the collective ATV trails in the Greater East Grand Region. The GEGR planning team believes taking a big picture view of the existing trail system will help highlight areas of importance regarding connectivity.

Given recent events in Augusta, including recommendations of the ATV Task to the legislature, Brian Bronson, Supervisor, Off-Road Recreational Vehicle Program for the Bureau of Parks and Lands, and some of his team members will also be in Weston to help lead the discussion.

The Planning Team recognizes there are challenges with both ATV and Snowmobile Clubs, including annual landowner permissions, organizational capacity, trail development and maintenance, volunteerism and funding. Because some or all of these trails fall within our economic planning area there may be some advantages to your Club such as access to sources of funding not otherwise available.

**Please let us know your availability, and who will be representing your organization.** We look forward to seeing you. Thank you.
